PROFESSIONAL FIDUCIARY SERVICES

Conservator

The Probate Court appoints us as Conservator when an individual is deemed incapacitated and unable to manage their financial affairs due to physical or mental disability. We secure and manage the assets of the protected individual to safeguard them from exploitation and to ensure their financial needs are met.

Trustee

Either an individual’s Trust or the Court appoints us as Trustee when a professional third-party is desired. We manage and administer the assets of trust property according to the terms of the trust and act solely for the benefit of the trust beneficiary.

Personal Representative

Either an individual’s Last Will and Testament or the Court appoints us as Personal Representative, usually due to unavailable or unsuitable family or friends. All estates are administered according to the terms of the Will and the laws of South Carolina.

VA Fiduciary

The Department of Veterans Affairs appoints us as Fiduciary when they determine that a Veteran is unable to responsibly manage their benefits due to mental or physical disability. We oversee their benefits to ensure they maintain housing and a stable environment.
